Review Log – Coding Conventions 1.0

Authors: Swena Gupta

Please make the following changes:

1. Write your full name in the Primary author(s) section. This is necessary in a formal documentation.
2. Correct numbering in the index: Under Table of Contents , make 1.1 to 1 for introduction
3. The font seems uneven. At places it is 'Calibri', whereas 'Arial' at some other. Please make that uniform.
4. Under section 2.3.1: Naming Conventions, change the e.g. given from 'My_plugin_name.php' to 'My-plugin-name.php'.
5. Just below this, change 'class- prepended' to 'Class- prepended'. Notice the capitalization of 'c'.
6. Use the term 'decrypting' in place of 'crypting' in the fifth bullet point under Naming Selector section.
